SPECS

10 reasons to own

01 Turn rent into equity

Ten years of rent leaves you nothing. The same decade of payments leaves you owning the building.

02 As little as 10% down

SBA 504 may be available to qualified owner-occupants, fixing 40% of the debt for 25 years.*

03 Fix your occupancy cost permanently

No renewal negotiations, no market resets, no annual escalations you do not control.

04 Capture the appreciation yourself

Boca Raton industrial has no land supply left. Value accrues to the owner, not the tenant.

05 Deduct interest and depreciate the asset

Interest is deductible, and cost segregation can pull a large deduction into year one.

06 Build the space around your operation

Specify your own power, finishes and buildout. No landlord consent, no restoration.

07 Buy for where you are going

Adjacent units can be combined at purchase, so you size today against tomorrow's headcount.

08 Never move again

Location stability protects your workforce, your customers, and the goodwill in your address.

09 A park of owners, not tenants

Owner-occupants maintain their buildings and hold the standard of the park. Turnover is minimal.

10 A transferable, financeable asset

Sell it, hold it as retirement income, or lease it to your successor.

The site.

The property fronts Broken Sound Boulevard NW, with lake frontage east and the Broken Sound Club golf course wrapping west and south. The two buildings face one another across a shared interior court, so loading is concealed from the street and every unit presents a glass storefront and its own entry to landscaped parking. At 2.7 spaces per 1,000 square feet, the site parks well above a typical industrial condominium.
